

DKZ/83/2010

Warsaw, 17.12.2010

The Institute of Electron Technology informs that the close examination of the offers submitted in the course of the open tendering procedure for the **delivery of the semi-automatic probe station for measurements in low and high temperatures and at measurement signal frequency up to 10MHz, including measurement accessories**, has led to the selection of the offer presented by **AM Technologies Polska Sp. z o.o., ul. Nakielska 3, 01-106 Warsaw, Poland**, which was the only offer fulfilling the requirements.
